Everyone deserves a secure retirement. I am appalled to read about retirement benefits being cut in places like Detroit when workers have worked hard all their lives and have no opportunity to earn more. In case you don't know, ageism is alive and well in Ct. and people who need to work can't necessarily get a job, especially one that doesn't require standing on one's feet all day. Let's make Ct. the forward-thinking state that looks at this issue from all sides and comes up with a decent solution.
